

PARTNERING WITH INDUSTRY

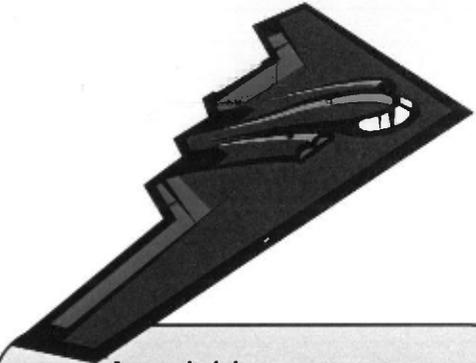

Major Weapon System Development Program Realism

Achieve centralized acquisition policy, strategy and process that is agile, transparent and predictable.

Institute realistic funding, requirements and procedures to achieve predictable performance and schedules in partnership with industry

Acquisition strategy development and program source selection must align programs and industry on top level strategic issues and focus competitive source selection on risk and management performance instead of cost.

Defense Contractors must be accountable to impose discipline and instill Integrity in the contracting process

Aggressively compete the subcontractors, reach out to small business and continuously manage to excellence.

Establish streamlined program initiation, procurement and milestone review processes to substantially reduce time to market.
